VILLA SAID TO HAVE ESCAPED

Carranza Forces Fail to Keep Net Tight.

CAUSES GRAVE MISGIVINGS

Mexican Government Troops Are Alleged to Be Not Only Unwilling to Aid the Americans but Actually Withdrawing From the Field.

El Paso, Tex., March 21.—The Carranza forces have failed to hold their end of the net that was closing about Pancho Villa and the bandit chief has escaped to his mountain haunts about Guerrero, according to reliable information received here. The escape of the bandit, however, is far from being the most serious item of news which reached the border.

A feature of the gravest importance was injected into the situation by substantial confirmation of the numerous reports received for the past week that the Mexican government troops were not only failing to co-operate with the American troops, but, in certain instances at least, were actually withdrawing from the field of operations.

The troops of the de facto government, which had been stationed at Casas Grandes, have been withdrawn and are now in and about Juarez.

It was also learned that at least one detachment of Carranza troops had refused to fight Villa and had withdrawn from the bandit's approach, allowing him to pass into his favorite mountain fastness in the great continental divide south of Namiquipa.

This detachment withdrew on receipt of a message that he was warning not on Mexicans, but the enemies of Mexicans.

The extraordinary rapidity with which the American cavalry had pushed into Mexico gave rise to high hopes that the unexpected had happened and the notorious bandit was cornered. This seemed inevitable if the Carranza soldiers did their part and if the account of the strength of their field forces was correct.

Villa, cut off from the north by the forward sweep of the American column, from the west by the Sierra Madre barring approaches to the state of Sonora, was supposed to be equally barred from east and south by powerful Carranza forces. Those hopes have been completely dashed by developments.

More than this, it now seems certain that Villa is moving freely in at least a large section of the country supposed to be held by the troops of the first chief.

CARRANZA SUBMITS OFFER

Seeks to Reach Agreement on Plan to Catch Villa.

Washington, March 21.—The de facto government of Mexico has proposed to the United States the drafting of a protocol, under which American and Mexican troops may co-operate in running to earth Francisco Villa and his bandits, without danger of misunderstanding or conflict.

The terms of such a formal convention would be designed to meet all questions which may arise in the future, setting forth the rights of the American expeditionary forces now in pursuit of the bandit chieftain and the nature of the co-operation expected from the troops of the Carranza government.

EARLY DAKOTA CHIEF DEAD

Dr. William Jayne, Territorial Governor Under Lincoln, Succumbs.

Springfield, Ill., March 21.—Dr. William Jayne, territorial governor of the Dakotas under President Abraham Lincoln, whose personal friend he was, identified with banking interests of the state, former state senator and former mayor of Springfield, died here following a fall on an icy sidewalk in this city last January. Dr. Jayne was eighty-nine years old.

PIONEER BLACKSMITH DEAD

Worked at Forge in St. Paul for Sixty-five Years.

St. Paul, March 21.—Minnesota's veteran blacksmith, August Jobst, eighty years old, is dead. He had followed his trade on the West Side since 1851, when he began shoeing horses for the handful of settlers gathered at the site of St. Paul. He was found dead in his bed.

The man was a blacksmith when he came to St. Paul at the age of fifteen years. He worked his way here from Germany, making his way to St. Paul in a flatboat.

He was one of the first to enlist in the Civil war, and served through the conflict at his trade.

COLONEL TREVINO.

Carranza's Right Hand Man Said to Bitterly Hate General Villa.

Photo by American Press Association.

Colonel Jackinto Trevino is strongly depended on to aid in the hunt for General Villa. Trevino enjoys the complete confidence of Carranza. It is said that he nurses a personal grudge against the bandit leader.

ADDITIONAL TROOPS GO FROM COLUMBUS

Columbus, N. M., March 21.—A large body of American cavalry has left here. The troops, which were brought here from the Texas border points, were preceded by a motor train carrying supplies. Whether the detachment will serve as a separate command in the effort to capture Francisco Villa or whether it is to join the punitive expedition force now in the field under General Pershing somewhere in North Chihuahua was not indicated by military authorities here.

Accompanying the troops were a number of American civilian scouts, said to know the mountain trails of Chihuahua as the city man knows his front yard.

TAGGART APPOINTED TO SUCCEED SHIVELY.
Indianapolis, March 21.—Governor Ralston appointed Thomas Taggart United States senator to fill the vacancy left by the death of Benjamin F. Shively.

WEDDED PAIR RIGHTS EQUAL

Court Rules Against Former Woman Treasurer in Alienation Suit.

Bismarck, N. D., March 21.—Miss Helen Goehring, former deputy county treasurer of Logan county, must pay Mrs. Eva Rott, wife of the former clerk of court of that county, \$1,500 for alienation of her husband's affections.

The North Dakota supreme court, in affirming the lower court's findings, establishes a rule regarding the conjugal rights of women in North Dakota, holding the husband and wife have equal rights.

Miss Goehring pleaded the wife had no rights over her husband as to his conduct toward other women.

BRITONS FEAR FURTHER INCREASE IN TAXES.
London, March 21.—Considerable increase in taxation will be proposed in the budget early next month, according to the Daily News.

The News expresses the belief that the income tax and taxes on spirits, sugar and tobacco will be increased and new duties are likely to be levied on imported watches, clocks, hats, plate glass and automobile tires.

GOODNOW HOLDS CHINA JOB

Retained for Another Year as Constitutional Adviser.

Washington, March 21.—The Chinese legation announced that the agreement with Professor Frank J. Goodnow, president of Johns Hopkins university, to serve as confidential adviser of the Chinese government had been renewed for a year from May 1 next.

GEN. FUNSTON ASKS FOR MORE TROOPS

(By United Press)
San Antonio, March 21.—Gen. Funston asks more troops to protect the dangerously thin line of communication.

U. S. CAVALRY BY FORCED MARCHES REINFORCE CARRANZA

(By United Press)
El Paso, March 21.—The United States cavalry under General Dodd are under forced marches from Cruces toward Namiquipa to reinforce the Carranza troops which are engaging in a running fight with Villa. Although encircled Villa is making a desperate effort to reach the Santa Clara canyon in the Guerrero mountains.

Gave Americans Cordial Welcome

Washington, March 21.—It is officially hinted that the Mormons at Casas Grande gave the American troops arriving a vociferous welcome. General Funston wired, "We found the natives everywhere friendly. The Carranzistas gave every evidence of friendliness. The Mormons greeted us as rescuers."

Villa Pursuit Hot Abandon All Else

San Antonio, March 21.—So hot has the Villa pursuit become that General Pershing has apparently abandoned use of the wireless. Everything now subordinates to the actual pursuit of the bandit. Even routine reports are abandoned.

Asks United States Number of Soldiers

Washington, March 21.—Carranza has asked the United States for a statement as to the number of American troops now employed in the Villa hunt.

Report Villa Escaped Will Not Down

(By United Press)
El Paso, March 21.—It is believed here that Villa has escaped Carranza and the American pursuers. Official reports have not been received, and no confirmation that Villa gave the troops the slip have been received, however. There is a possibility that he outflanked both expeditions, and the presence of large bodies of Carranzistas between Gen. Pershing and the border arouses the suspicions of Villa's possible influence upon Carranza's generals in northern Mexico.

Gives President Power

(By United Press)
Washington, Mar. 21.—An amendment to the army organization bill which has been introduced gives the president power to call out the regular army reserves in case of war or threatened hostilities without the consent of Congress. It also gives the president authority to increase the army 60,000.

Committee Meets Boost Amendment

(By United Press)
St. Paul, March 21.—A self-appointed committee of Northern Minnesota business men met at the state capitol and outlined a plan for boosting Amendment No. 1, of the state constitution for creating a revolving fund of a quarter million for improving Northern Minnesota lands. P. H. McGarry, of Walker, is chairman of the committee.

Selection of Keynote Delayed Until April

(By United Press)
Chicago, March 21.—The selection of the keynote of the Republican national convention has been postponed until April. The subcommittee adjourned without acting. Dean Murray, of Columbia University, it is rumored, who was being considered for temporary chairman, telegraphed that he was unable to come on account of commencement exercises.

WEST FLANKING ATTACK

(By United Press)
London, March 21.—By a flanking attack from the extreme west the crown prince is trying to force the abandonment of the French positions on the northwest front of Verdun. The German offensive is on the east of Malancourt following a failure of frontal attacks to break the French front west of the Meuse. The crown prince is applying the familiar nut cracker strategy on a narrow section ten miles from the Verdun forts.

BRITISH DESTROYERS ENGAGE THREE GERMAN DESTROYERS

(By United Press)
London, March 21.—Four British destroyers engaged three German destroyers off the Belgian coast yesterday. The shells hit two of the enemy boats. Four British sailors were wounded, the Germans escaping into the naval bases at Zeebrugge after a running fight.

SIZE OF NEW ARMY IS KEPT AT 140,000

Washington, March 21.—By refusing definitely to increase the regular army provisions of the Hay bill the house made it almost certain that the measure will go to the senate virtually as framed and by an overwhelming vote.

The net result of the debate on proposed amendments was to sustain the recommendation of the president as to the size of the regular army.

The Hay bill carries virtually the program mapped out by former Secretary Garrison in this regard, but substitutes the federalization of the national guard for the continental army.

The president has approved the general outline, but stands uncommitted as to details.

Three times the house defeated proposals to increase the peace strength of the regulars, fixed by the Hay bill at 140,000, expandable to 175,000 by executive order if war is imminent.

PLEDGES HIS AID TO GET BACK \$600,000

New York, March 21.—Under a promise to assist the district attorney's office to recover \$600,000 obtained three years ago from American and foreign banks through the hypothecation of false invoices Philip M. Musica, formerly president of the United States Hair company, was released from the Tombs prison under a suspended sentence.

Musica, his father, Antonio, and other members of the family, were importers and exporters of human hair goods. They borrowed money on consignments awaiting shipment. These goods, represented as human hair, were found to be barbers' clippings. This was shortly after the Musica family had gone into bankruptcy here in March, 1913, and fled to New Orleans. Philip and Antonio Musica were arrested and brought back. The ill-health of the father led to his release, but the son has since been in the Tombs.

MISSISSIPPI PACKET SINKS

One Woman Is Drowned When the Ben Hur Goes Down.

Vicksburg, Miss., March 21.—The Vicksburg and Greenville packet steamer Ben Hur of the Royal route sank while backing from the landing at Duckport, La., according to telephone messages received here.

One woman passenger was drowned. The message gave no details. The packet carried a heavy cargo of freight and only a few passengers.

Mine Damages Danish Town.

London, March 21.—Two thousand panes of glass were shattered and serious damage resulted to houses and shops when a mine which drifted ashore off Gudhem exploded, says a dispatch to the Daily Telegraph from Copenhagen.

FRENCH REPULSE VICIOUS ATTACK

Paris Reports Germans Used Jets of Liquid Flame.

SLIGHT PROGRESS RESULTS

Assault Between Avocourt and Malancourt Is Made by Teutons With Fresh Troops, the Losses to the Attacking Force Being Described as Very Large.

Paris, March 21.—Another powerful German attack, this time between Avocourt and Malancourt, west of the Meuse, resulted in heavy losses to the Germans, according to the official communication issued by the French war office.

A fresh division brought up from a distant point was used in this operation, which was characterized by the employment of jets of liquid flame. At one point, east of the Malancourt wood, the Germans made some slight progress.

2,000 SHIPS LOST TO TRADE

Germany Heads List With 600 Sunk, Captured or Interned.

Washington, March 21.—The European war has taken from the seas more than 2,000 merchant vessels of nearly 4,000,000 tonnage, according to figures published by the department of commerce. Germany, with 600 vessels sunk, captured or interned, heads the list of losers.

Two hundred and twenty-five of the 500 British vessels lost were sunk by submarines. Great Britain's allies lost 167 ships.

Austria lost 80 and Turkey 124. The total of neutral losses is put at 736, but most of these were released after being reported captured.

Ninety-two neutral vessels have been sunk by submarines and 94 sunk by mines. Twenty-three have been damaged by submarines and mines.

BRITISH REITERATE DENIAL

No E-Boats in Vicinity at Time of Sinking of Tubantia.

Washington, March 21.—Reports that the Dutch steamer Tubantia had been sunk by a British submarine, with the purpose of causing friction between neutral states of North Europe and Germany, developed this statement from the British embassy here.

"An unqualified denial of the German statement regarding the sinking of the Tubantia is given by the British admiralty in the following cablegram:

"No British submarines were in the vicinity at the time of the sinking of the Tubantia."

GERMAN YOUTHS MUST SAVE

Minors to Deposit All Earnings Over 18 Marks Weekly.

Berlin, March 21.—An official decree was issued that minors engaged in gainful occupations shall not receive more than 18 marks weekly of their earnings, with a surplus amounting to not more than one-third the amount paid in excess of 18 marks. The residue must be deposited in savings banks, not to be withdrawn during the war.

This measure was adopted as exceptionally high salaries are being paid and in some instances the money has been wasted.

SOUTH DAKOTA WOMAN WILL RUN FOR MAYOR.
Rapid City, S. D., March 21.—Rapid City will have a woman candidate for mayor. Mrs. S. E. Holcomb has announced that she will run. She is not satisfied with the way street work has been done and will make her campaign on this issue.

Says Movies are Vile

(By United Press)
Lawrence, Kans., March 21—"Kansas should take over and manage the motion picture business as it has the publication of text books," declared William A. McKeever, head of the Child Welfare department of Kansas university in an interview today. "The motion picture business is today our greatest educational force," explained the professor, "and yet it is in the hands of commercialists. A state board of educators in full control and management of motion pictures could, at present prices, clear a million dollars annually for the school fund. It could do vastly more than this. Through the right selection of films and especially through the use of films made to its order by artists with educational insight, the state could create for its rising generation a new set of high ideals."

"Our state censorship has done a courageous and commendable work, but it is placed by the law at the losing end of the game. Seventy-five percent of the films shown in Kansas today are cheap and mediocre productions. About half of them are depictions of some base crime or other form of human depravity. Those shows are breaking down our high ideals of moral integrity and Christian citizenship. Thus the thousands of acts of altruistic suffering, sorrow, sacrifices and other forms of virtue are crowded out of the films, while theft, murder, robbery, family brawls, sexual sin and uncleanness are played up under a veneer of fine clothes and a glare of bright lights."

"Thus, through its subtle influences in breaking down the ideals of the family, of Christian worship and services, the science of motion pictures is being permitted to blast the 'Rock of Ages.'"

North Dakota Primary Today

(By United Press)
Bismarck, N. D., March 21—North Dakota's presidential preference primary today developed into a fight for positions as delegates. There was no fight for the head of the ticket. Twenty-seven democrats sought to go to St. Louis, all pledged to Woodrow Wilson. Other fights were equally interesting. Wilson was the only democratic presidential candidate.

Henry D. Estabrooke, New York, was the sole nominee of the republicans, although he did not have the support of the old guard republicans who were non-committal. Progressive republicans went to the polls with Senator Robert LaFollette of Wisconsin at the head of their ticket. Arthur Lesuer, Minot, N. D., was the sole socialist candidate.

IS YOUR SPINAL COLUMN PLUMB?

There are so many contributing causes which lead to a defective spinal column that to enumerate them would require an almost exhaustive review of life from the cradle to the grave.

The position assumed by the child at the school desk, or the man or woman while at work, suggests the tendency for abnormal spinal curvature; also a fall or bruise, no matter how slight, may easily throw the spinal column out of plumb, and these may cause the fatal pressure upon the nerves and throttle the life-giving currents, leading to disease of the organ.

Chiropractic Adjusts Spinal Defects

It lifts the pressure from the nerves, permitting them to nourish the finished and worn out tissues and organs. Nature is then able to bring about normal conditions, which mean health.

WOMAN'S REALM

NEW ZEALAND'S PROUD RECORD

Has the Lowest Infant Death Rate in the World, Works Energetically to Retain Honor

THE NURSES IN CHARGE

Instruction Given by them in Maternal Pertaining to the Hygiene of Motherhood

(U. S. Department of Labor) Children's Bureau, Washington New Zealand has long had the lowest infant death rate in the world and more than any other country New Zealand is actively working to reduce its infant death rate still further. This saving of babies' lives has progressed most markedly since the New Zealand Society for the Health of Women and Children began in 1907 its instructive nursing.

The nurses of this society—called "Plunket nurses" from the former governor and his wife who assisted Dr. Truby King in organizing the society—work from some seventy centers scattered through the dominion and visit periodically all the neighboring towns and outlying districts to give advice and instruction in matters pertaining to the hygiene of motherhood.

The services of the nurse are at the disposal of every member of the community, rich or poor, and especial emphasis is laid on the value of her advice and help to expectant mothers. She does not however undertake the

daily care of sick people as her primary aim is educational. When the visit of the Plunket nurse is expected in a community the local committee arranges for her to hold mothers' meetings and demonstrations of baby care in addition to classroom talks and home visits. Correspondence with mothers in country districts too remote to be visited often is also a part of her duties. The society further maintains at Dunedin the Karitane-Harris hospital for babies and mothers which is primarily a school for mothers.

The aims of the society have been thus defined:

"The society is less concerned in reducing the death rate than in improving the health of the people. As a health society, we are more interested in firmly establishing the all-round fitness of the 24,000 or 25,000 annual new arrivals who will live than we are in reducing the potential deaths from 2,000 to 1,000. However, the problems are practically identical, since the simple hygienic measures which tend to prevent death in babyhood are also the measures which lay the foundations of strong and healthy minds in sound enduring bodies for those who survive to be our future men and women."

This educational work by a volunteer society supplements in New Zealand a system of public health work by the government which includes a complete registration of births, a corps of district nurses distributed throughout the country, maternity hospitals in the cities and maternity wards in many of the country hospitals, and strict regulation of midwives with the enforcement of a penalty for the occurrence of septic cases.

In presenting a report on the work of this New Zealand society, Miss Lathrop, Chief of the Children's Bureau of the U. S. Department of Labor, said:

"Because of the absence of adequate birth and death registration in the United States, the infant death rate of this country as a whole is unknown, but estimates tend to show that it is at least twice the rate in New Zealand, which the registrar general of that country reported in 1912 to be 51 per 1000. New Zealand, like certain of our states, is a young and vigorous country with a scattered population and with no large cities, and there is every reason to believe that similar volunteer efforts in this country would produce similar results."

CHERRYBLOSSOM, KOKEMO AND TOGO SINGING "HIS ROYAL CONDESCENSION" IN "MISS CHERRYBLOSSOM"

From the time the first curtain goes up on the dainty Geisha girls in soft, clinging crepe costumes, tripping nimbly beneath the 10,000 cherry blossoms on cherry trees, to the fall of the last curtain and the finale by the entire cast, there is bound not to be a hitch in the play of "Miss Cherryblossom" which will be presented under the auspices of the Bachelor Maids at the Brainerd opera house on Thursday and Friday, March 23 and 24.

Principals and choruses are rehearsing diligently under the direction of John Wilson Dodge, author of the opera. The latter was a pupil of Sbriglia and Bouhey in Paris, France and of Wm. Shakespeare,

teacher of voice, London, England. Mr. Dodge was the head of the music department of Lawrence University, Appleton, Wis., for many years.

The play is clean, clever, and witty. The subtle humor of the entire part of Kokemo is of unusual merit. Kokemo will be played by Judge Clifton A. Albright, who in addition to having conducted a successful campaign for republican delegate from the sixth district of Minnesota, has learned the lines of his part.

Mrs. Clyde E. Parker, demure, bewitching and charming, has the role of Miss Cherryblossom.

The choruses are working with snap and precision and will do their part to make the play a success.

Young Peoples Society

The Young Peoples society of the Norwegian-Danish Lutheran church will meet Wednesday evening, Mar. 22 with Mrs. K. K. Thoe, 802 Quince street.

Potato Diseases

Threaten State

Under no circumstances should potatoes from unknown sources be bought for planting, says E. C. Stakman, of the Minnesota college of agriculture. There is great danger of introducing powdery scab of potatoes into the potato growing sections of Minnesota. But for the intervention of state authorities, a shipment would have been unloaded on the Minneapolis market recently. Had these potatoes been planted, one of the most dangerous diseases would probably have been introduced into this section.

Powdery scab occurs in Maine, New York, Florida, Oregon, Washington, as well as in Canada and in other foreign countries. It is found in the extreme northeastern part of Minnesota. Importation of potatoes from infected districts was forbidden until recently. Maine was quarantined when it was thought that the disease existed in no other state.

Powdery scab is carried on the tubers and may live in the soil six or seven years. It can be distinguished by small, purplish blisters, which break open and rupture the skin of the potato, forming pustules about an eighth of an inch in diameter. Any potatoes suspected of carrying the disease should be sent to Plant Disease Section, University Farm, St. Paul, for examination. To avoid danger of introducing this or other diseases, all seed potatoes should be soaked an hour and a half in a solution of 4 ounces of corrosive sublimate to 30 gallons of water.

Haynes America's Greatest "Light Six"

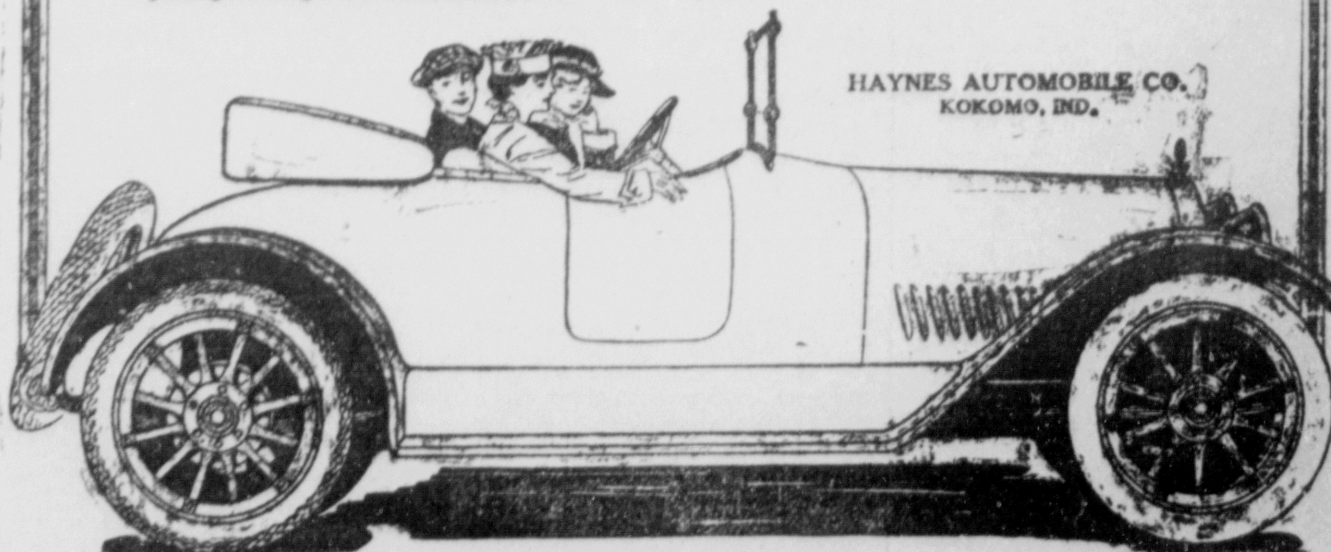

New Series Models 36 and 37 embody many refinements including seat covers, aluminum pistons, improved body lines, gipsy curtains, ammeter, hydrometer.

The engine in the new Haynes "Light Six" is the same light, high-speed, 55 horse-power motor, that develops more horse-power than any other engine of the same bore and stroke. It will speed up to more than a mile a minute or throttle down to less than a mile an hour. In actual performance it has flexibility, hill-climbing power, get-away ability, and economy which have made Haynes users enthusiastic boosters. This has resulted in a sale that for 1915 practically totalled the combined output of the other car makers of Indiana.

See this wonderful car—the car that has been the automobile sensation for the past year—the car that has developed into the most popular "Light Six" on the market.

BRAINERD MAY HAVE AN ARMORY

Formation of an Engineers' Division of the Naval Militia Would Insure It

CAPT. GUY A. EATON IN CITY

Accompanied by Lieutenant Commander C. H. Fischer and Lieut. A. H. House, U. S. N.

The formation in this city of an engineers' division of the naval militia of Minnesota, an enrollment of at least 60 men, would undoubtedly assure for Brainerd a fine armory.

Commander Guy A. Eaton, Duluth, of the naval militia of Minnesota, was in the city and gave out this information. "If the right spirit was shown," said Commander Eaton, "a machine shop would be built. Members of the division will take a 15 days' cruise every year. However, if Brainerd wants to enter the lists for this division, the recruiting must be done soon before St. Paul or Minneapolis accepts the offer."

A necessary part of every naval corps is the mechanical department embracing machinists, boiler-makers, steam fitters, helpers, electricians, blacksmiths and other trades. A nucleus of an engineers' division has been formed in Duluth.

A search is being made for wire operators. They receive instruction also in the best schools of the east.

Mr. Eaton and party were at Bemidji where an inspection was made of the naval militia there and Lieutenant Commander Fischer said Bemidji had a fine body of men, above the average. Tonight the Crosby branch will be inspected, then Pine City, Lindstrom and on Friday night Duluth. Lieutenant Commander Fischer's jurisdiction includes the Great Lakes.

NEW GROCERY FIRM IN BRAINERD

Larson & Alexander Buy Interests of Amos K. Lukens in Store at 618 Laurel Street

ARE BOTH EXPERIENCED MEN

Will Handle a Complete Line of Staples and Fancy Groceries, Prompt Delivery Given

Larson & Alexander is the name of a new grocery firm in Brainerd, composed of Ole D. Larson and Frank Alexander, who have bought the interests of Amos K. Lukens at 618 Laurel street. A complete line of staple and fancy groceries will be handled.

Ole D. Larson, of the firm, has been a pioneer in the field of delivering groceries. He has worked for Brockway & Parker 4 years and was formerly with the O'Brien Mercantile Co., the Koop Mercantile Co. and Dykeman's. It is said he can shut his eyes and drive his team to any desired point in the city.

Frank Alexander has been with A. K. Lukens the past seven years and has faithfully served Brainerd in the interests of the grocery business. A number of mules being a familiar sight. Before that Mr. Alexander was employed by August Hallquist. He has really grown up in the grocery business.

Where so much experience is coupled with a desire to serve and do business in prompt, modern methods, customers may expect the best and will get the best in this line of trade, and their friends are assured they will be successful in their endeavors. Both are very popular young men.

RETURN FROM WASHINGTON, D. C.

A. M. Opsahl Says Congressman Lindbergh is being Petitioned to Run for the Senate

CONGRESSMEN'S LONG HOURS

Administration in Issuing Passports Warns Travelers of Risks in Sea Travel

A. M. Opsahl, who has returned from a trip to Washington, D. C., has given the Dispatch the following interesting account:

"Yes, I had a fine trip but am glad to be home again. I had made the trip twice before, but this was as if it was new. I had my daughter Marion with me and to see her interested in everything was the same as if it was myself. When we got to Washington, Sunday morning we saw no more snow. Marion was a guest of the Lindbergh family. Their acquaintance with the city made it easy to know what could be done in a five day Washington visit. This was the graduation present of Mrs. Opsahl and myself to our daughter, a little additional in the line of education.

I could see a difference in feeling in Washington than when I was there before. To get there and talk with people who know as much about details as any one can is not the same as reading in the papers. The war is the important thing thought of down there. I was somewhat surprised to find out that the vote on Americans traveling on ships with guns does not show the real feeling of Congressmen. Almost all of them are opposed to Americans traveling that way, and the surprise was that the vote was more for the benefit of Wilson than to settle the right. It is claimed that Wilson did the very next day what he had, or the papers said he had opposed. The papers the next day in big headlines stated Wilson advised Americans that if they traveled on these vessels it would be at their own risk. Before that the papers stated that Wilson would not take any such stand, and it is stated by many that Wilson had to make a promise that he would notify Americans to keep off, or congress would not give him the vote. Now the administration will not give a passport to Americans without giving them the notice.

The biggest surprise to me was to see how the President is regarded in Washington. Everybody seems to love and respect Speaker Clark, but not much open praise seems to go to Wilson. I was at a theatre one evening when Wilson was brought out by the movies in a very prominent way. I believe there were 2600 persons present, and when Wilson's picture came on the screen, there was not two dozen that clapped their hands.

There was not much political talk down there that I hear of. Everybody seemed to be busy with other matters. I was around Lindbergh's office considerable, and could see that these Congressmen have no easy snap—they can't follow union hours. It is about 15 to 16 hours of solid digging each day. I saw in Lindbergh's office a table covered with letters and petitions of different kinds that had come in just the last few days. They were on all kinds of subjects. Letters for and against preparedness many of them. He says baskets of printed matters come in from New York and other cities demanding preparedness and the expense of billions for building up an army and navy. That seems to be the big fight. They say there never was such extravagance in the big eastern cities as now, for they have made a billion or more making war material and speculating on the war. They have all kinds of stuff printed expecting it to excite the people to keep up a war spirit, because it is the best money makers that ever was for a few big companies.

"Up here we are interested in Lindbergh, but just now he is working on the flood difficulties, rural credits and other matters before congress, and says little about politics. He is getting letters and petitions—some asking him to run for the house again, others want him to run for the senate. Those asking him to run for the senate are largely from the farmers and small business men in the country and the working men in the cities."

The present court house and jail were then under construction and were ready for occupancy by the various county officers the following July.

Judge O. P. Stearns was judge of the then 11th judicial district, which then comprised the whole northern half of the state. On the afternoon of the day of my arrival Judge Stearns was holding court in Bly's hall, second story of a frame building at the corner of 6th and Front streets. The case of State against Gorst, was on trial and our late friend G. W. Holland, prosecuting.

MUSIC AND DRAMA

VIVIAN MARTIN

Dainty Little Ingenue Appears in "Over Night" at the Best Theatre

Vivian Martin, the dainty little ingenue of "Old Dutch," "The Wishing Ring," "Little Miss Brown," and other World Film comedies has in "Over Night" a part suited to her delicate and piquant style of acting. She is a very timid little bride who loses her hubby on their honeymoon. Hubby in a series of circumstances finds himself in the company of another bride.

The fun starts on the great Hudson River steamboat, the "Hendrick Hudson." One of the couples has to take refuge over night at an inn in the way to the Catskills, and make believe they are married. The other couple arrives there in the morning and then there is a great deal of quarrelling and demands for explanations before the complication is straightened out.

Vivian Martin gives a very delightful impersonation of the bewildered bride. There is an adequate supporting cast. The picture is beautifully photographed and ably directed, and will be found a very entertaining offering.

"Over Night" will be shown at the Best theatre tonight.

33RD ANNIVERSARY

County Attorney S. F. Alderman Writes of Changes in Brainerd Since He Came Here in 1883

Today was the thirty-third anniversary of County Attorney S. F. Alderman's arrival in Brainerd and the Dispatch was favored by receiving from him his reminiscences covering Brainerd and its business and professional life in the early eighties and Mr. Alderman has contrasted the early pioneer days with the present. He writes as follows:

Thirty-three years ago today there was much more snow on the ground than now but it disappeared very rapidly and in fact was entirely gone on April 1st of that year without floods or especially high water.

Ruins of the old Headquarters hotel, which had been destroyed by fire a few weeks before, were much in evidence on the site afterwards occupied by the Arlington hotel between the present N. P. ice house and the west line of 6th street, near the present depot. A rough board building had been temporarily erected for use as a dining room for the benefit of passengers, on the present site of the Y. M. C. A. building, and in that building the writer enjoyed his first meal in Brainerd. At that time there were several very good hotels, the Commercial hotel, at the corner of 5th and Laurel streets; the Nicollet, at the corner of 4th and Laurel, the Merchants, at the corner of 6th and Laurel, the Northern Pacific hotel on East Laurel street in South East Brainerd, then owned and operated by Mr. Mahlum, our present city clerk, and still another in the basement of the First National bank building in the quarters now occupied by J. A. Cochran as a barber shop.

There were then nearly as many churches in Brainerd as now, but comparatively few of the church buildings now remain, most all have been replaced by larger and more modern structures. The school houses then in use have all disappeared and in their place are good substantial school buildings. The county officers were then housed in the second story of what was known as the Hartley block, located on Front street, just west of 6th street, the ground floor being occupied by Campbell & Smith as a dry goods and clothing store. The county officers were Frank B. Thompson, auditor; Newton McFadden, treasurer; Milton McFadden, register of deeds; H. D. Pollett, judge of probate; G. W. Holland, county attorney; A. W. Frater, clerk of district court; Peter Mertz, sheriff and F. J. Hawley, supt. of schools.

B. F. Hartley was mayor of the city; J. B. Douglas, judge of municipal court; Russell G. Sparks, city clerk, and the peace and dignity of the city were guarded by police officers Wm. Shontell, John McMahon, Mose Derocher and E. J. Fulton.

The present court house and jail were then under construction and were ready for occupancy by the various county officers the following July.

Judge O. P. Stearns was judge of the then 11th judicial district, which then comprised the whole northern half of the state. On the afternoon of the day of my arrival Judge Stearns was holding court in Bly's hall, second story of a frame building at the corner of 6th and Front streets. The case of State against Gorst, was on trial and our late friend G. W. Holland, prosecuting.

SHERIFF'S STATEMENT

Story of a Babe Killed in Snow Declared Not to be Voiced in Complaint

Sheriff Claus A. Theorin said that no complaint had reached his office of a babe being killed and thrown out in the snow in a settlement north of Cuyuna, as reported in a range paper. Sheriff Theorin says that a Mrs. Laughton, residing with her husband, and husband's brother close to Remer in Cass county, came to him about three weeks ago and wanted the sheriff to notify the reformatory at St. Cloud that her husband and his brother had threatened to kill her and her child, and that they were destitute.

Communication with the reformatory established the fact that the Laughton boys had been released.

Sheriff Theorin then told Mrs. Laughton to go to Walker, Cass county, to swear out a warrant. Later the sheriff saw Ed Rogers, county attorney of Cass county and explained the case to him.

Mr. Rogers later in a letter to the sheriff said a warrant had been issued for the arrest of the Laughtons. However, before the warrant was served, said Mr. Rogers, both left the state and were now believed to be in Idaho. Mrs. Laughton was still in the county, desiring to get a divorce, and in that proceeding can gain possession of her child. Mr. Rogers has not yet decided to ask for extradition papers.

Why "Anuric" is an INSURANCE Against Sudden Death.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery, "Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

STRENGTH AND BEAUTY

Come with Dr. Pierce's Golden Medical Discovery. This is a blood cleanser and alternative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart, nerves, brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and vigorous instead of tired, weak and faint.

GLASS OF SALTS CLEANS KIDNEYS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

THE GOOD JUDGE DROPS IN TO SEE THE BLACKSMITH.

MY FRIEND, YOU LOOK SATISFIED.

I CERTAINLY AM, JUDGE. I USE THE REAL TOBACCO CHEW NOW. IT MAKES ME FEEL CERTAIN THAT I HAVE PUT THE SHOE ON THE RIGHT FOOT.

WHEN you run across a man who uses W-B CUT Chewing—the long shred Real Tobacco Chew—you'll find he's tobacco satisfied.

He will tell you that the big wad of the ordinary kind don't contain the comfort of the small chew of W-B CUT Chewing—because W-B CUT Chewing is rich tobacco.

Maybe you want to get more satisfaction from your chewing than you are getting now. If so then go get W-B CUT today.

"Notice how the salt brings out the rich tobacco taste!" Made by WEYMAN-BRUTON COMPANY, 50 Union Square, New York City

AGREE ON PLAN TO RAISE MONEY

House Leaders Perfecting Revenue Measure.

WILL BOOST INCOME TAXES

Special Levy on Manufacture of Munitions of War Is Expected to Produce About Forty Million Dollars and the Revenue on Alcoholic Drinks May Be Increased.

Washington, March 21.—Majority Leader Kitchin and the other Democratic members of the house ways and means committee have reached an agreement as to the essential features of the revenue measure to be formulated as a means of financing the national defense program and other additional expenditures to be authorized by the present congress.

The points regarded as settled at this time are as follows: First—One hundred million dollars will be raised by increasing the income tax rates.

Second—A tax will be levied on the manufacture of munitions of war, designed to produce from \$25,000,000 to \$40,000,000.

Third—An additional \$20,000,000 will be raised by levies upon inheritances, increases of the internal revenue taxes on beer and whisky, or excises upon selected articles from a list of twenty-five available objects of taxation, which is now being studied by the members of the ways and means committee.

Fourth—The stamp tax provisions of the present emergency revenue act, which produced approximately \$40,000,000 last year, are to be repeated.

Increase in Income Taxes.

Congress leaders consider that the levy of an additional \$100,000,000 upon the nation's income is an assured fact.

Not only are the Democratic members of the ways and means committee in agreement in the matter, but a complete canvass of the Democratic membership of the house has convinced Leader Kitchin and his associates that they will insist upon this means of raising the national defense revenue.

Information has come to the leaders who favor increasing the yield from the income tax that the Wilson administration will not disapprove such procedure.

A bitter fight on the part of the Republicans against the income and inheritance tax provision is anticipated. While the Democratic leaders are confident that any question as to the constitutionality of an inheritance tax could be easily dissipated it is believed that difficulties will be thrown in the way of this proposal by the Republicans, at least as concerns the exercise of a function by the federal government which already has been utilized by the state governments.

HAS FEARFUL EXPERIENCE

Woman Hides in Abandoned Mine From Villa Bandits.

El Paso, Tex., March 21.—On the verge of a nervous breakdown, Mrs. Wallace Rogers, Detroit, Mich., the wife of a mine owner, hugged her baby tightly in her arms and retold the story of their two day's refuge in an abandoned copper mine shaft in the Cananea district, while Villaista bandits ravaged the countryside and sought to slay all Americans.

Mrs. Rogers said the Mexicans became infuriated at the sight of the American flag and respected only the British flag. Many Americans, she asserted, were compelled at this time to seek protection under the folds of the British Union Jack.

Abdominal Surgery.

Abdominal surgery first was attempted in France in the fourteenth century.

M. RADOSLAVOFF.

Attempt to Kill Bulgarian Premier Fails.

Photo by American Press Association.

Rome, March 21.—A Bulgarian postal employee named Varhoff attempted to assassinate Premier Radoslavoff in Sofia.

He fired twice at Radoslavoff while the premier was riding in a carriage.

One of the bullets struck the prime minister's coachman, but the premier escaped injury.

FIFTY AEROPLANES IN GREAT BATTLE

Basel, Switzerland, March 21.—When twenty-three allied aeroplanes raided Mulhausen, Upper Alsace, the greatest aerial battle of the war took place. Accounts just reaching here declare that more than fifty machines were fighting at such close quarters that the German anti-aircraft guns had to cease fire to avoid hitting their own machines.

One French airman rammed a German machine, which fell in flames. Five German aeroplanes and three French fell, the occupants of all being killed. Even while the allied airmen were fighting they dropped bombs on military positions.

COLE YOUNGER IS LOWER

His Physicians Believe Death Is Near Unless Turn Comes.

Lees Summit, Mo., March 21.—The condition of Cole Younger, former bandit, but for the past several years a peaceable citizen of this city, was announced as very critical by his physicians.

Unless there was turn for the better within a few hours, they declared, it was believed he would not survive another day.
